

Poly Boss – PB75

Your all-terrain flexible pipe and cable coiling and de-coiling unit

Poly Boss 75 was designed and manufactured by rural people with a firsthand knowledge of performing in a remote environment. The Poly Boss will help you achieve in minutes with one person what previously took a number of people hours to achieve.

Driven by an economical hydraulic motor with freewheeling capabilities, the Poly Boss 75 significantly reduces your time and physical effort previously required to handle polythene pipe, lay flat hose and cable kink free. It will even roll wire!

Features

- Purpose built heavy duty trailer
- Rugged all terrain wheels and tyres
- Hydraulic motor driven with freewheel capabilities
- Can accommodate 40mm up to 75mm poly pipe
- Adaptable for cable, lay flat hose and wire

Benefits

- Maximise your productivity
- Reduce manual labour requirements
- Reduced your manual handling
- Very safe for single person operation
- Recover poly pipe back to factory size
- Recovery, storage and re-use of pipe made easy
